

EXCEL BEYOND THE BELL

CASE STUDY

Challenge

“Imagine trying to schedule training times for dozens of part-time summer employees attending college? Trying to get together in the same room for a traditional training is very difficult and at times, just impossible!”

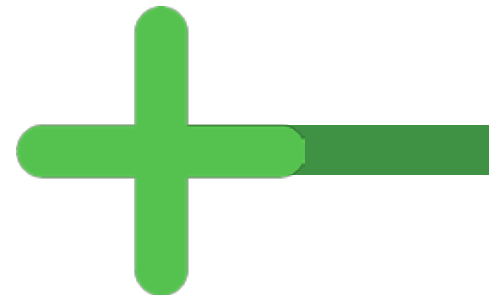

Solution

“This training has allowed us to be flexible and provide training’s to in-coming staff on their own time. Staff can take the training at their own convenience, meanwhile our organization can track and manage to make sure training and compliance requirements are being fulfilled.”

Benefits

“The training modules help new and current staff become familiar with the foundations of OST youth development and understand how to do their job much better. Staff enjoys the interactive online learning and it has proven very effective in a recent Efficacy Study.”

- Jill Oettinger | CEO of Good Samaritan Community Services -
