

COLLABORATION FEATURES**Learner Features****Courses**

Browse hundreds of interactive courses to create your course catalog.

**Resources**

Curate and monitor a digital library of your organization's documents, available for downloading and viewing.

**Discussion Boards**

Continue the conversation through message posts and attachments in your discussion boards.

**Teams**

Organize your staff into relevant groups to easily manage and customize their learning experiences.

**Course Certificates**

Document successful completion of training with a downloadable certificate.

**Transcripts**

Track learner progress through the use of exportable transcripts, which include course status, results, and completion date.

**Events**

Create, track, and organize your in-person and webinar learning events on the integrated learning calendar.

**Additional Training**

Record and approve training completed outside of your LMS.

**Learning Paths**

Provide a sequence of specific steps to accomplish a learning goal or task.

**Cloud-Hosted**

Rely on our cloud-based hosting and 99.97% uptime to keep your LMS up and running.

**SCORM/AICC-Compliant**

Meet SCORM and AICC requirements with our fully-compliant site.

**Assessments**

Measure competencies and use results to assign targeted training and purposeful professional development.

Admin Features

Custom-Branded LMS

Brand your LMS with your organization's logo and colors, and customize features to meet your needs.

Create-A-Course Tool

Upload your own PPTs or PDFs, turn it into a course, offer it to your learners, and track their progress.

User Management

Convert your existing training into eLearning; use analytics to track performance, adjust content, and adapt to meet learner needs.

Additional Registration Information

Add custom registration fields to your LMS, such as department and employment type.

Reporting

Keep track of your staff's training performance with customized reporting.

Course Assignments

Add courses for individual learners and teams; emails alert users that new training has been assigned.
