Create-A-Course

As your training solutions partner, we provide value, convenience, and flexibility to help you achieve your performance goals. Use our extensive catalog of courses. Collaborate with us to develop custom content. Bring your existing training into our versatile and responsive learning content management system.

The right training.

The right tools.

Right on time.

Your Challenges

- You've developed training using PowerPoint, video, and PDFs. Now you'd like to get that training online.

- You want to include interactivity and multimedia in your training.

- You need a way to track training, run reports, and get test results for the learners in your organization.

Our Solutions

- Our do-it-yourself Create-A-Course tool allows you to quickly and easily upload your existing training.

- With Create-A-Course, you can include audio on each slide, insert videos, and create a multiple choice quiz.

- Because Create-A-Course is part of our Learning Management System, CollaborNation, you have access to all of our robust tracking and reporting features.

CYPHERWORX

"The DIY courses we have made has been a time lifesaver; we used to have to try and get everyone in the same place to give the training, and still ended up doing endless individual sessions.

- Carrie Dean
Zoo Education Coordinator, Reid Park Zoo
