

FOR IMMEDIATE RELEASE:

CypherWorx, Inc. Receives IACET 2016 Exemplar Training Award

ROCHESTER, N.Y., August 2, 2016 – The International Association for Continuing Education and Training (IACET) announced today that CypherWorx received honorable mention in the 2016 Exemplar Training Awards. The IACET Award honors exemplary, results-oriented programs or projects that demonstrate cost-effective, significant, and relevant impact on the populations served as evidenced by testimony. The award also honors deserving programs that have significantly contributed to the field of continuing education and training.

“We are honored and humbled by this recognition and the work we have done with our clients to earn this award,” said CEO Paul Cypher. “I am very proud that we have been recognized by our peers and IACET as being among the best of the best. This award highlights our ability to deliver results-driven training solutions with demonstrated impact for our clients and partners. It sets a new bar for the high standards we set for ourselves in providing solutions for our clients.”

“With the quality of highly competitive submissions the Committee received, selecting the 2016 recipient was a significant challenge. We congratulate and honor CypherWorx for its achievement,” said Joe McClary, IACET CEO.

“IACET is pleased to recognize CypherWorx and the other winners as representing the highest quality in adult training and education today. Each winner has accomplished outstanding results through a keen focus on best practice standards and protocols in the field of continuing education in the workplace. Today, employee learning is faster paced and more in demand than ever before. We welcome the accomplishments of our award winners as truly representative of IACET’s accreditation practice for ongoing employee training and development,” said Sandy Williams, IACET Chair.

Past winners of the Exemplar Training Awards include NASA/APPEL, School of Continuing Education of the American University of Cairo, SAE International, Federal Highway Administration’s National Highway Institute, Northwest Energy Efficiency Council, Centers for Disease Control, ClickSafety, Automatic Data Processing, Westinghouse Electric Company, and others.
